

The future of storage.

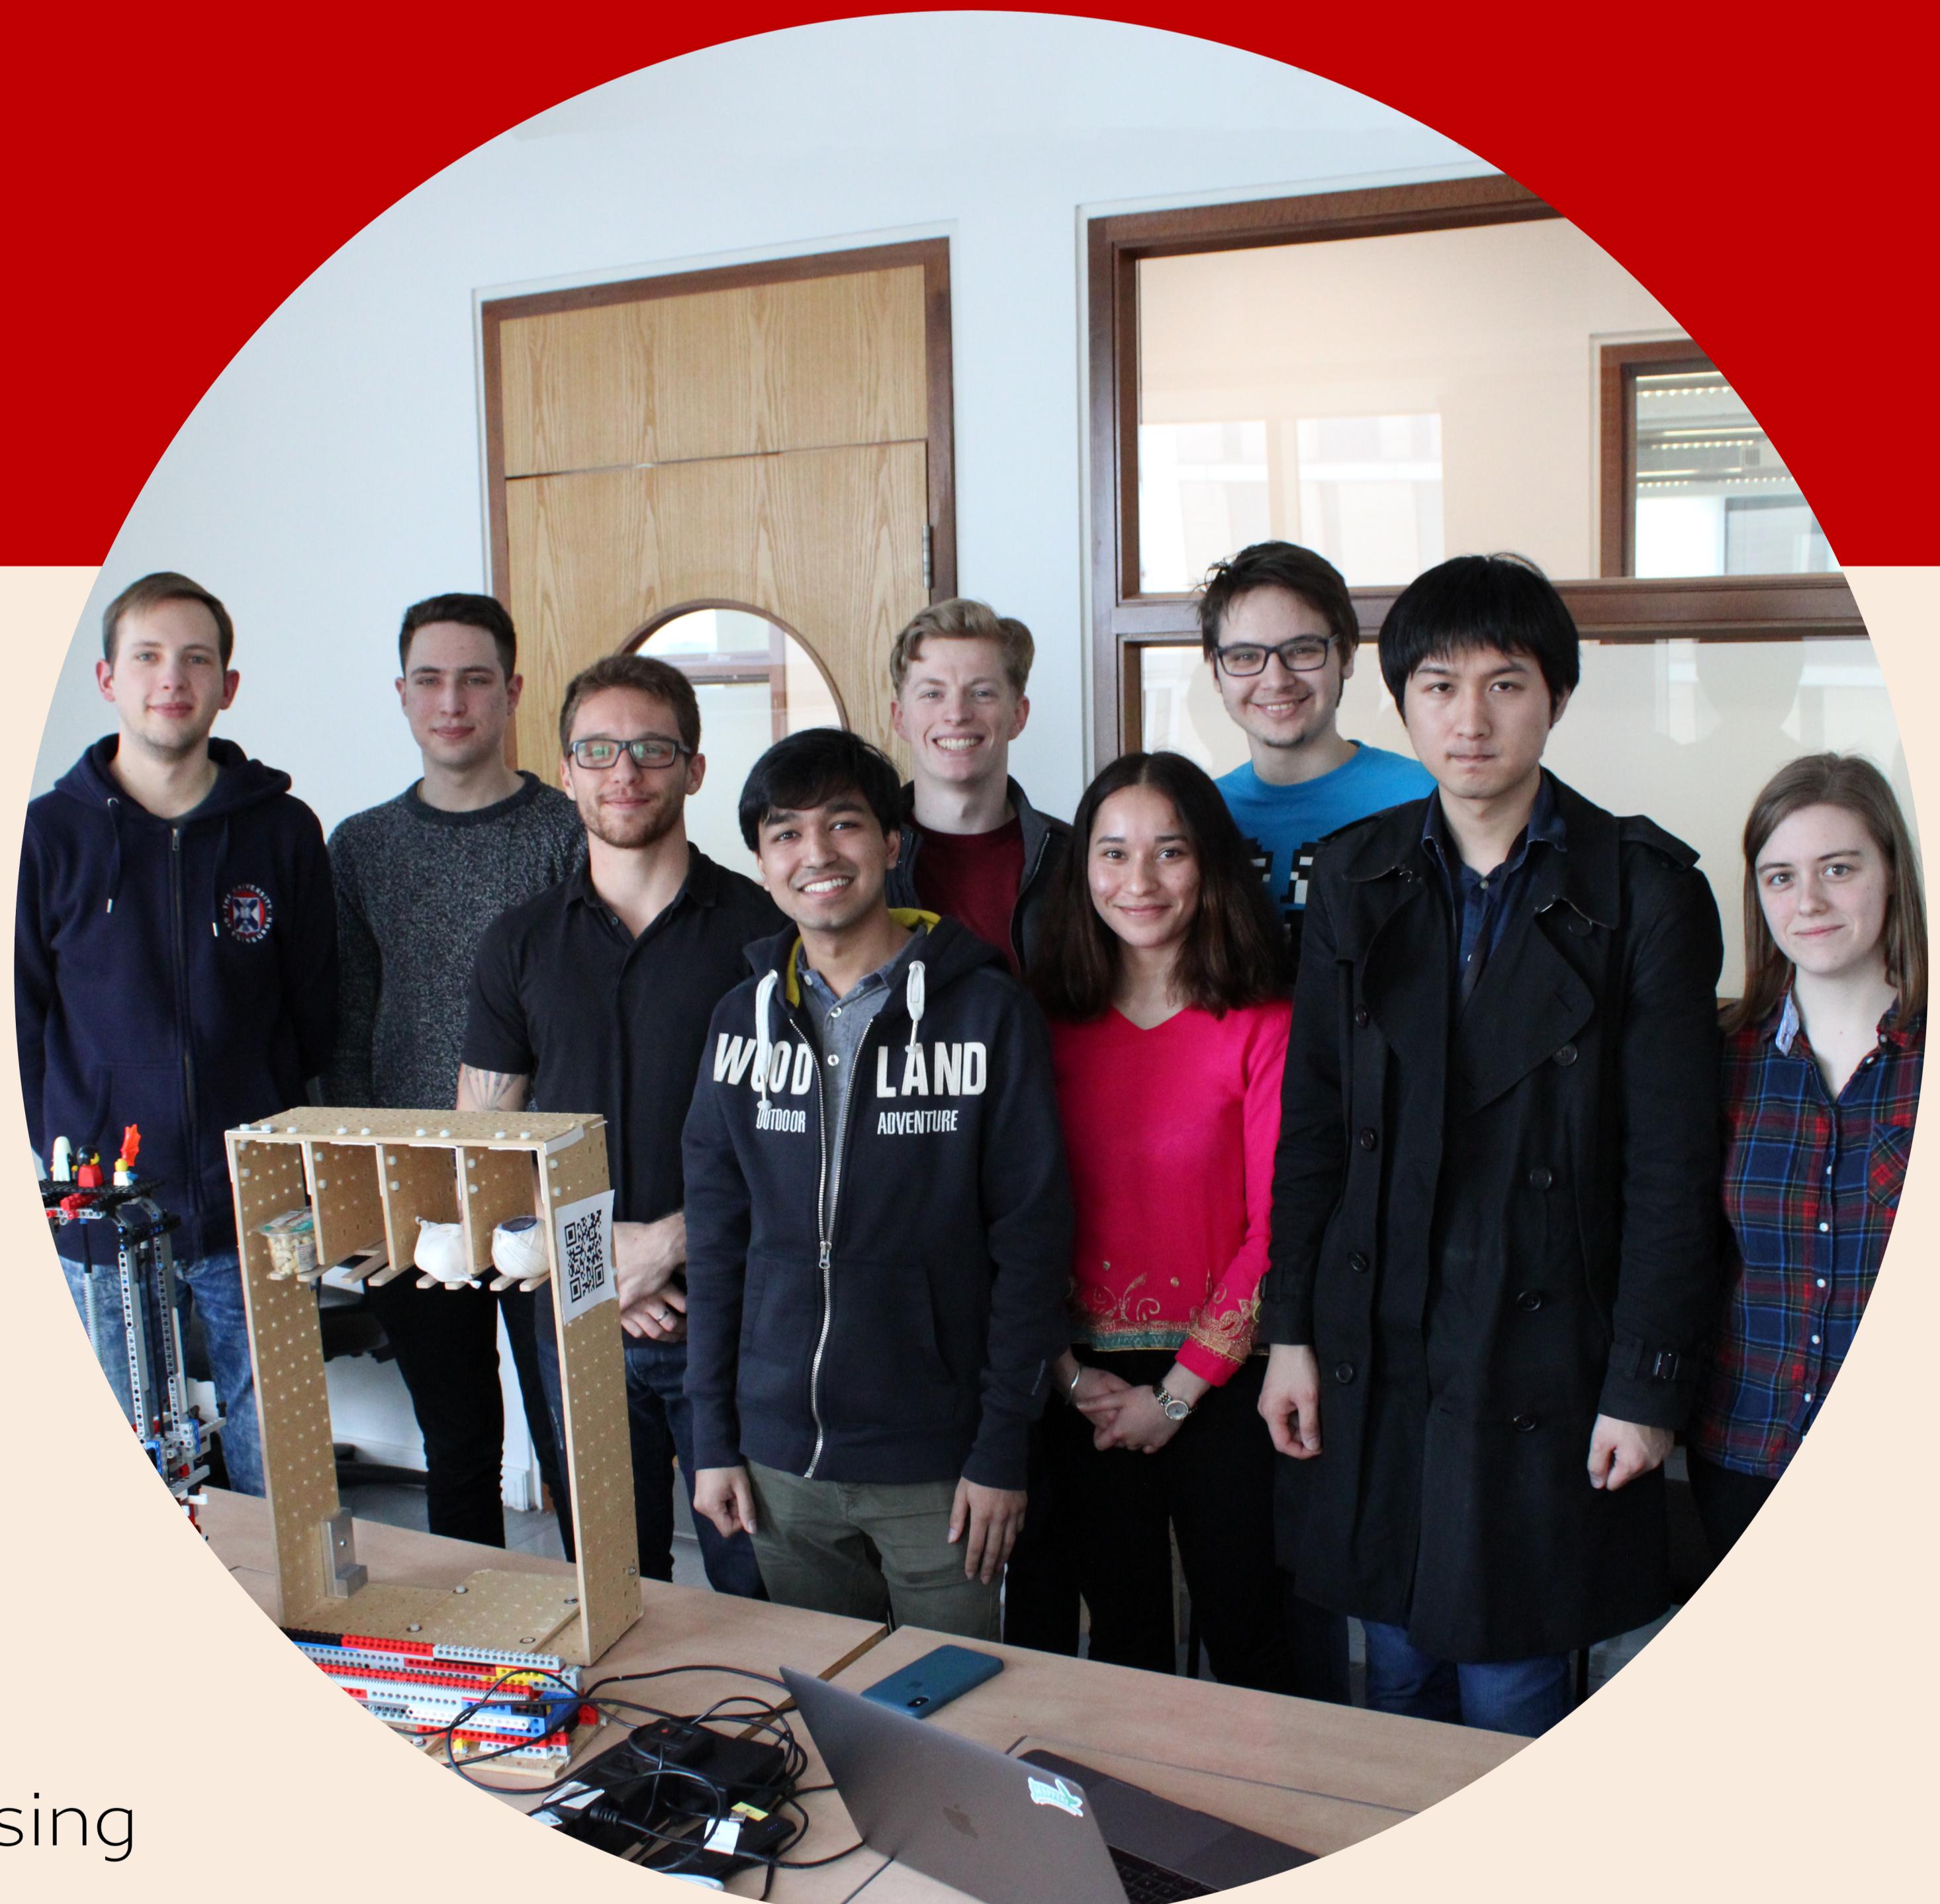

What *is* RoboReach?

RoboReach is a *smart* home shelf robot, designed from the ground up to be easy to use and extremely helpful.

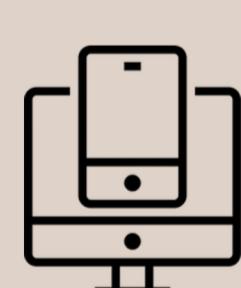

Using a simple app, RoboReach assists people with various mobility issues to obtain and store items in hard to reach places.

Empowers disability. **Utilises** space.

Secure

Locally hosted • Closed system

Adaptable

Open source • Easily extendable

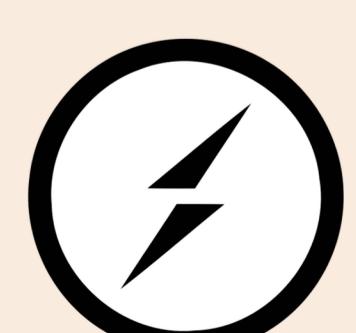

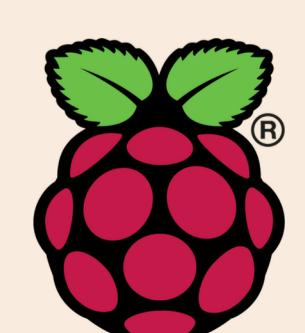

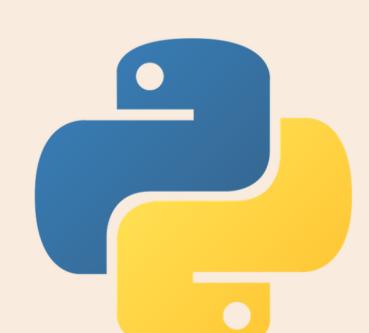

Innovative

Multi-cycle algorithms • Parallel processing
